## DETAILED ACTION

Applicant's arguments are not persuasive and the art rejection of *Barmore* (US 6,647,451) still stands in view of the following grounds of rejection.

### ***Response to Applicant's Arguments***

1. The Attorney of record, Kelly Kordzik, cannot overcome the Examiner's claim rejection by making a declaration. Affidavits or declarations to overcome a rejection of a claim or claims must be made by the *inventor* or *inventors* of the subject matter of the rejected claim(s), a party qualified under 37 CFR 1.42, 1.43, or 1.47, or the assignee or other party in interest when it is not possible to produce the affidavit or declaration of the inventor(s). Thus, where all of the named inventors of a pending application are not inventors of every claim of the application, any affidavit under 37 CFR 1.131 could be signed by only the inventor(s) of the subject matter of the rejected claims. Further, where it is shown that a joint inventor is deceased, refuses to sign, or is otherwise unavailable, the signatures of the remaining joint inventors are sufficient. However, the affidavit or declaration, even though signed by fewer than all the joint inventors, must show completion of the invention by all of the joint inventors of the subject matter of the claim(s) under rejection. *In re Carlson*, 79 F.2d

Specifically, the following parties may make an affidavit or declaration under 37 CFR 1.131:

- (A) All the *inventors* of the subject matter claimed.
- (B) An affidavit or declaration by less than all named *inventors* of an application is

Art Unit: 2182

accepted where it is shown that less than all named *inventors* of an application invented the subject matter of the claim or claims under rejection. For example, one of two joint inventors is accepted where it is shown that one of the joint inventors is the sole inventor of the claim or claims under rejection.

(C) \*\*> If a petition under 37 CFR 1.47 was granted or the application was accepted under 37 CFR 1.42 or 1.43, the affidavit or declaration may be signed by the 37 CFR 1.47 applicant or the legal representative, where appropriate.<

(D) The assignee or other party in interest when it is not possible to produce the affidavit or declaration of the inventor.

(*Ex parte Foster*, 1903 C.D. 213, 105 O.G. 261 (Comm'r Pat. 1903))

2. The Attorney's declaration filed on 7/9/04 under 37 CFR 1.131 has been considered but is ineffective to overcome the *Barmore* reference. The evidence submitted is insufficient to establish diligence from a date prior to the date of the *Barmore* reference to either a constructive reduction to practice or an actual reduction to practice.

3. It is apparent to Examiner that Applicant's Attorney was trying to show diligence. However, an applicant must account for the entire period during which diligence is required. *Gould v. Schawlow*, 363 F.2d 908, 919, 150 USPQ 634, 643 (CCPA 1966) (Merely stating that there were no weeks or months that the invention was not worked on is not enough.); *In re Harry*, 333 F.2d 920, 923, 142 USPQ 164, 166 (CCPA 1964) (statement that the subject matter "was diligently reduced to practice" is not a showing

Art Unit: 2182

but a mere pleading). A 2-day period lacking activity has been held to be fatal. In re Mulder, 716 F.2d 1542, 1545, 219 USPQ 189, 193 (Fed. Cir. 1983) (37 CFR 1.131 issue); Fitzgerald v. Arbib, 268 F.2d 763, 766, 122 USPQ 530, 532 (CCPA 1959)

4. The diligence of attorney in preparing and filing patent application inures to the benefit of the inventor. Conception was established at least as early as the date a draft of a patent application was finished by a patent attorney on behalf of the inventor. Reasonable diligence is established if attorney worked reasonably hard on the application during the continuous critical period. If the attorney has a reasonable backlog of unrelated cases which he takes up in chronological order and carries out expeditiously, that is sufficient. Work on a related case(s) that contributed substantially to the ultimate preparation of an application can be credited diligence.).

5. The Examiner cannot speculate as to the attorney's docket and/or backlog for the two weeks it took for receiving the application and approving the final draft for the application, therefore, what is needed is a specific statement from attorney stating that the handling of applicant's filing was in a normal course of business.

6. Furthermore, it was also apparent to Examiner that Applicant's Attorney was trying to show conception, however, the evidence submitted is insufficient to establish a conception of the invention prior to the effective date of the *Barmore* reference. While conception is the mental part of the inventive act, it must be capable of proof, such as by demonstrative evidence or by a complete disclosure to another. Conception is more than a vague idea of how to solve a problem. The requisite means themselves and

their interaction must also be comprehended. See *Mergenthaler v. Scudder*, 1897 C.D. 724, 81 O.G. 1417 (D.C. Cir. 1897).

7. Specifically, the draft application submitted as exhibit B is regarded by Examiner to be essentially similar to the filed application and would establish conception. However, what is still needed is an affidavit from the inventors clearly explaining conception of the filed application where conception occurs prior to the date of the reference, but reduction to practice is afterward, it is not enough merely to allege that applicant or patent owner had been diligent. *Ex parte Hunter*, 1889 C.D. 218, 49 O.G. 733 (Comm'r Pat. 1889). Rather, applicant must show evidence of facts establishing diligence. In determining the sufficiency of a 37 CFR 1.131 affidavit or declaration, diligence need not be considered unless conception of the invention prior to the effective date is clearly established, since diligence comes into question only after prior conception is established. *Ex parte Kantor*, 177 USPQ 455 (Bd. App. 1958).

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2182

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
